

1st IEEE International Symposium on Communications Software for Intelligent Transport Systems

Taipei, Taiwan

Nov. 5-8, 2012

12th International Conference on Telecommunications for Intelligent Transport Systems

General Chair

Joel Rodrigues, Institute for Telecommunications,
University of Beira Interior, Portugal

TPC Chair

Jaime Lloret, Pol. Univ. of Valencia, Spain

Publicity Chair

Vasco Soares, Institute for Telecomunicações,
University of Beira Interior, Portugal

Web Chair

João Dias, Institute for Telecommunications, University
of Beira Interior, Portugal

TPC Members

Abdelhamid Mellouk, UPEC, France
Binod Vaidya, University of Ottawa, Canada
Bruno Zarpelão, State Univ. of Londrina, Brazil
Christos Douligeris, University of Piraeus, Greece
Christos Verikoukis, CTTE, Spain
David Lizcano, Univ. Politécnica de Madrid, Spain
Farid Farahmand, Sonoma State University, USA
Feng Xia, Dalian University of Technology, China
Jaime Lloret, Pol. Univ. Valencia, Spain
Kai Lin, Dalian University of Technology, china
Kayhan Zrar Ghafoor, Universiti Teknologi Malaysia
Lei Shu, Osaka University, Japan
Liang Zhou, Nanjing Univ. of Posts and Telco., China
Mario Proença jr., State University of Londrina, Brazil
Mbaye B. Sene; Cheikh Anta Diop Univ., Dakar, Senegal
Min Chen; Seoul National University, Korea
Mohammad S. Obaidat, Monmouth University, USA
Pascal Lorenz, University of Haute Alsace, France
Paulo Gondim, Univ. of Brasilia, Brazil
Paulo Salvador, University of Aveiro, Portugal
Rami Langar, LIP6, France
Sherali Zeadally, Univ. of the District of Columbia, USA
S. Khan, Kohat Univ. of Science and Tech., Pakistan
T. Russell Hsing, Telcordia Technologies, USA
Vasco Soares, Inst. Telecomunicações, IPCB, Portugal
Xiaodong Lin, Uni. of Ontario Inst. Technology, Canada
Zoubir MAMMERI, Paul Sabatier U. Toulouse, France

Call for Papers

Communications software plays an important role on current computer network, such as vehicular communications and intelligent transport systems. The objective of this Symposium is to provide a single forum for researchers and technologists to discuss the state-of-the-art, present their contributions, and set future directions in communications software for ITS.

We welcome technical papers presenting analytical research, simulations, practical results, position papers addressing the pros and cons of specific proposals, and papers addressing the key problems and solutions. The topics suggested by the conference can be discussed in term of concepts, state of the art, standards, deployments, implementations, running experiments and applications.

Authors are invited to submit complete unpublished papers, which are not under review in any other conference or journal, including, but not limited to, the following:

- New communication software paradigms for ITS
- Performance and robustness
- Utilization of multiple access networks
- Distributed/ubiquitous computing with ITS
- Algorithms and protocols for ITS
- Optimization for ITS
- Device monitoring and management
- Safety approaches for ITS
- Social and life enhancement
- Mobile services and applications
- Security aspects for ITS
- Economic aspects
- Smart vehicles communications

Important Date:

Technical Paper Submission: July 15, 2012
Acceptance Notification: August 15, 2012
Early-Bird Registration: September 30, 2012

Submission guidelines:

All submissions must be full papers in PDF format and uploaded on EDAS (<http://edas.info/newPaper.php?c=11573&track=22841>). They must not exceed 6 single-spaced, double-column pages using 10 pt size fonts on 8.5 x 11 inch pages in IEEE style format.
